Scope of the Position:

With close supervision provided by the Senior Accounting Officer (Supervisor), the Accountant Trainee will learn to perform professional accounting work in the establishment and maintenance of accounts and records while receiving training in the bureau systems and central fiscal control activities associated with the Unclaimed Property Program. This position will receive close direction in accounting and control procedures established by management to ensure the proper payment of claims. Specific duties include, but will not be limited to the following:

Duties and Responsibilities: (Candidates must perform the following functions with or without reasonable accommodations)

- Analyze and reconcile securities posted in the subsidiary ledgers from the Securities Asset Accounting System (STKS) and UPS2000 in order to determine the financial status of securities received in the Bureau of Unclaimed Property (UCP). Learn to ensure securities are correctly posted to each subsidiary ledger within the STKS and UPS2000, by comparing the CUSIP on accounting records. Learn to obtain the correct value of each security posted in the security subsidiary ledgers.
- Learn to review, reconcile, and analyze each security fiscal transaction that has been approved for payment on the UPS2000. Learn to verify the number of securities received and the number of shares applicable to the individual claim for payment. Learn to identify errors and make corrections. Learn to research the internet to determine the past activities and current status of each security posted to the securities account on the UPS2000 and STKS.
- Learn to resolve problems received from claimants regarding stock approved for payment. Learn to identify problems that may arise as a result of the encumbrance/sale of certificates for payment of stock accounts, and consult with the Senior Accounting Officer (Supervisor) to determine the appropriate accounting procedures that should be invoked to resolve the problems.
- Learn to develop accounting procedures appropriate to, and specifically for the UPS2000. Learn to develop subsidiary accounting applications such as using Microsoft Excel and Access programs in the development of subsidiary ledgers and other worksheets necessary for stock securities claims payment. Draft correspondence to provide accounting information reports for management.
- Provide assistance in other areas of the Accounting unit that may be backlogged.
